EXPERIENCE

DIESELMATIC | Full Stack Senior Developer Jan 2023 – Present

Built Dieselmatic's internal product foundation from scratch, including a tenant-based customer/account platform, internal workflows, API portal, integrations and operational tooling.

- Designed and implemented integrations with **Meta, Stripe, Google and Fullbay** for reporting and ROI calculations.
- Released and supported **DieselSites.io** — a customer-facing website product for heavy-duty repair shops.
- Implemented **AI-assisted workflows and OpenAI SDK/API** capabilities to accelerate operations and insights.

TJSOFT | Founder, Product Owner & Full-Stack Engineer 2012 – Present

Built and operated SaaS products from concept to production, handling architecture, development, infrastructure, onboarding and long-term maintenance.

- Created **highly automated, low-maintenance platforms** for e-commerce, payments, booking and workflows.
- Focused on reliability, scalability, automation and excellent user experience.

PREVIOUS ROLES

- White Label Coders** | Senior Software Engineer 2022
- OGL Computer** | Senior Software Engineer 2021
- SalesTracker24** | Full-Stack Yii Framework Specialist / B2B Contractor 2020
- Earlier experience** | Polish and international full-stack/software engineering projects 2009 – 2019

PUBLIC KEY PRODUCTS & RESULTS

- zgloszenia24.pl**
Self-service SaaS for forms, sign-ups, payments and workflows (Stripe, TPay, BLIK) — **designed, built and operated end-to-end as a solo founder-engineer**, with automated onboarding, billing and support.
- SkiManager.eu**
Multi-tenant SaaS for ski & sport schools — reservations, instructor scheduling, POS/reception, payments, SMS and PDF workflows built for seasonal scale.
- DieselSites (Dieselmatic Digital)**
SaaS website platform for North American heavy-duty repair shops — performance- and SEO-optimized marketing sites with lead generation, integrated into Dieselmatic's API, customer portal and OpenAI workflow automation.

Available from 21 July 2026 — open to employee, contractor, **remote** and Vancouver/BC opportunities.
